On Sunday Marvin Glover and Watkins McPhillips went to South Boston to visit friends. Miss Geneva Brown accompanied them back to be the guest of Mr. and Mrs. Ed McPhillips until Tuesday of last week.

Dr. Simpkins Is Awarded Fellowship

FARMVILLE, April 23—Dr. Francis B. Simpkins, associate professor of history at Longwood College, has been awarded a John Simon Guggenheim Memorial Foundation Fellowship for the next academic year to enable him to collect materials for a biography of Jefferson Davis. Professor Simpkins has a contract with Alfred A. Knopf, New York publisher, for the publication of the projected book.

In applying for the Guggenheim award the Longwood teacher pointed out that no book devoted wholly to the late president of the Confederacy has been published in the past fifteen years, whereas several dozen books are published annually on Davis' great antagonist, Abraham Lincoln. It is not his intention, Professor Simpkins explains, to measure Davis by the Lincoln principles of democracy, nationalism, freedom, and military aggression against the opponents of those principles.

Dr. Simpkins will endeavor to measure Jefferson Davis by the principles he professed. He was a secessionalist, a believer in aristocracy and slavery, and a defender, through military action, of those principles. "For one with a proper historical sense," says Dr. Simpkins, "the Davis viewpoint can be as easily justified or explained as that of Lincoln."

After graduating from the University of South Carolina, Professor Simpkins studied at Columbia University where he was awarded the Ph.D. degree in 1926. Subsequent teaching posts have taken him to Randolph-Macon Woman's College, the University of North Carolina, Emory University, Louisiana State University, the University of Mississippi, and finally to Longwood College. He is the author of a number of studies of Southern history, among which is his widely-known "The South Old and New," and is currently writing a history of Virginia for use in the public schools.

A mandrill is a large baboon with a light blue nose, orange and yellow beard and a forehead crest of greenish hair.

St. Augustine, Florida, is the oldest city in the United States.

Evergreen

SHE'S THE SAFEST LADY ON THE ROAD

With Chrysler POWER STEERING plus Chrysler POWER BRAKES

At the wheel of a new Chrysler, you have quicker, surer control of motion than you've ever had in a car. You can't imagine what it's like till you drive it! With this full-time power steering, hydraulic power does 4/5 the steering work at your gentle pull on the wheel! You also turn the wheel 1/3 less distance. And on rough roads, soft shoulders, snow or sand, "wheel fight" just doesn't happen. Your hand actually has five times the usual steering control, through every minute of every mile . . . with the same sure "wheel feel" at all times!

With this safer way to steer, power brakes make stops at all speeds safer and easier, too. Power from the engine "boosts" every touch of your toe. Actually you stop with up to 2/3 less foot pressure than non-power brakes. You can bring your Chrysler to a halt from full speeds in many feet less distance than other cars of comparable size can stop. See your Chrysler dealer soon. Feel for yourself why thousands of owners say Chrysler offers the two greatest advances in many years in driving safety and driving ease!

FORD WINS AGAIN!

TAKES FIRST PLACE IN CLASS "A"

IN THE 1952 Mobilgas Economy Run

Ford's the Class "A" Winner for 3rd Consecutive Year!

New Ford Mileage Maker SIX Thriftiest in its Field!

Again this year . . . as in the past two years . . . Ford was first in gas economy over all other cars in its price class in the Mobilgas Economy Run. In this toughest test, a stock model Ford Six equipped with Overdrive (optional at extra cost) averaged 53.855 ton-miles per gallon and 25.463 actual miles per gallon.

This was a very special triumph for Ford's All-New Mileage Maker high-compression Six. For now, with its new design providing 101-horsepower and free-turning overhead valves, Ford is definitely pound-for-pound the most economical low-priced car to run! Yes . . . Ford's thrift was clearly proved by the 1,415-mile grind from Los Angeles to Sun Valley. And a very important factor contributing to this victory is Ford's Automatic Power Pilot which squeezes the last ounce of power out of every drop of gas.

*The AAA Contest Board determines the winner by a "ton-mile per gallon" formula to insure equal chance for all cars in each class regardless of size and weight. Ton miles per gallon equals the car weight (including passengers) in tons, multiplied by number of miles traveled, divided by number of gallons consumed.

HERE'S THE CERTIFIED AAA PROOF

NEW FORD 101-horsepower MILEAGE MAKER SIX with Overdrive
